NHS Benchmarking Network

2018 Operating Theatres Project – results.

NHS England

Quality improvement support in a variety of formats to suit different learning styles and requirements, from face-to-face facilitated support to self-directed virtual learning and online resources “help[ing] to deliver NHS England’s priorities and achieve the objectives set out in the NHS Five Year Forward View”.

NHS Improvement

Leadership for improvement — board development programme. (9 Nov 2018)
https://improvement.nhs.uk/resources/leadership-improvement-board-development-programme/

“The programme will focus on enabling boards to know what it takes to lead improvement in organisations where quality improvement is a core enabler to delivering the triple aim of achieving improvements in patient experience (satisfaction and outcomes), population health, and value for money.” 13 NHS Trusts have been selected to join the first cohort which will run from January 2019 to March 2020.

Pressure ulcers: definition and measurement: summary of responses to feedback (6 Nov 2018)
https://improvement.nhs.uk/resources/pressure-ulcers-revised-definition-and-measurement-framework/

“... responses to queries from the frontline on topics including moisture-associated skin damage, deep tissue injury and device-related pressure ulcers.”

Royal College of Physicians

https://www.rcplondon.ac.uk/projects/outputs/outpatients-future-adding-value-through-sustainability
“Recommendations
1 Quality improvement projects should report on value as a whole, recognising the population and system effects of change as well as individual clinical outcomes.” (Report, p.4)

BMJ Quality and Safety

NOVEMBER 2018 Vol.27(11)

ORIGINAL RESEARCH

- Comparing standard office-based follow-up with text-based remote monitoring in the management of postpartum hypertension: a randomised clinical trial
- Effect of copayment policies on initial medication non-adherence according to income: a population-based study
- Errors and discrepancies in the administration of intravenous infusions: a mixed methods multihospital observational study
- Hospital admissions associated with medication non-adherence: a systematic review of prospective observational studies
- Unplanned early hospital readmission among critical care survivors: a mixed methods study of patients and carers
- Speaking up about care concerns in the ICU: patient and family experiences, attitudes and perceived barriers
