COVID-19 PPE FOR AEROSOL GENERATING PROCEDURES

ORDER FOR PUTTING ON
Personal Protective Equipment (PPE)

Gather kit:
Gown
Mask
Eye protection
Gloves

ORDER FOR REMOVING
Personal Protective Equipment (PPE)
PPE MUST be removed in the following order to minimise cross-contamination.

Before leaving the side room/co-hort bay, gloves, gown and eye protection MUST be removed (in that order) and disposed of as infected waste:

1. Gloves – grasp the outside of the glove with the opposite gloved hand, peel off. Hold the removed glove in the gloved hand then slide the fingers of the ungloved hand under the remaining glove at the wrist. Peel the remaining glove off over the first glove and discard.
2. Perform hand hygiene.
3. Gown – pull away from the neck and shoulders touching the inside of the gown only using a peeling motion as the outside of the gown will be contaminated. Turn the gown inside out, fold or roll into a bundle and discard.
4. Remove goggles/visor only by the headband or sides and dispose of in infected waste.
5. Perform hand hygiene.

After leaving the side room:
6. Remove FFP3 mask/respirator from behind and dispose in infected waste
7. Perform hand hygiene

Before Donning
Ensure well hydrated
Empty all pockets

1. Perform hand hygiene (soap & water or hand sanitiser)
2. Gown
3. FFP3 respirator and fit check
4. Eye protection (goggles or face shield)
5. Gloves
