Before entering the side room

Gather kit:
- Gown
- Mask
- Eye protection
- Gloves

Before Donning
- Ensure well hydrated
- Empty all pockets

1. Disposable plastic apron
2. Fluid resistant surgical mask
3. Eye protection (goggles or face shield)
4. Disposable Nitrile gloves

ORDER FOR REMOVING
Personal Protective Equipment (PPE)

PPE MUST be removed in an order that minimises the potential for cross-contamination inside the room

1. Remove Gloves:
   - grasp the outside of the glove with the opposite gloved hand; peel off
   - hold the removed glove in gloved hand
   - slide the fingers of the un-gloved hand under the remaining glove at the wrist
   - peel the remaining glove off over the first glove and discard

2. Perform hand hygiene

3. Remove Apron:
   - Pull straps from behind waist and neck, roll from the inside and place in infectious waste

4. Remove eye protection:
   - only by the headband or sides and dispose in infectious waste

5. Remove surgical mask:
   - lean forward reach to the back of the head with both hands to untie straps,
   - let the mask fall away from your face and dispose in infectious waste

6. Perform hand hygiene.
